

HRM Appraisal

Employee Evaluation

Employee evaluation page manages evaluation for all employees. Click Evaluation tab in Employee menu, the employee evaluation list page shows as below

Add A New Evaluation

To add a new evaluation,

1. Click  Add button. Add New Employee Evaluation window opens, 
2. Select Employee No. from the drop down list. Once select the employee, employee's details from HRM will be displayed on the screen. 
3. Select the Period of Evaluation from the drop down list. Note: The period of evaluation corresponds to the employee's trade (as in above screenshot, selected worker's trade is PIPE FITTER, the period of evaluation will show all available period for PIPE FITTER). If there is no trade configured at the Master Evaluation Factor, then you will not see any dropdown list, the same applies to Employee Type in this Period of Evaluation selection. 
4. Click Save. A new evaluation request will be created for selected employee. The add evaluation page will be redirect to evaluation list page.

Add Evaluations in Bulk

To add evaluations in bulk,

1. Click  add in bulk button, below window opens, 
2. Select employees by ticking the box in front of the employee names. Note: please check the color code in the top right corner of the page for those employees that are not in selection list.
3. Click **Save**. New evaluation requests will be created for selected employees. The add evaluation page will be redirect to evaluation list page.

Employee Evaluation Workflow Types

There are two different workflows in employee evaluations.

Type 1 scenario is: employees do not need to do self appraisal. HR personal or person in charge will create employee evaluation request, employee's supervisor will receive an email notification to remind that he/she needs to do this employee's evaluation. (employee supervisor is configured as the supervisor field in Official Information page of the employee record in HRM); once supervisor completed evaluation of the employee, supervisor will send the evaluation for director level for final approval. Director will receive an email notification on this employee evaluation for approval. Director will review the all the ratings and comments of the employee and supervisor. Once reviewed, the director will click either Approve or Return the employee evaluation.

Type 2 scenario is: employees need to do self appraisal. HR personal or person in charge will create employee evaluation request. Employee will receive an email notification when his/her employee evaluation was created in the system. Employee needs to do self appraisal and then send to supervisor for evaluation. Supervisor will receive an email notification that he/she needs to do this employee's evaluation. After supervisor complete evaluation, supervisor will send the evaluation for director level for final approval. Director will review the all the ratings and comments of the employee and supervisor. Once reviewed, the director will click either Approve or Return the employee evaluation.

Set Up Signature in System

Signature setup is a one-time configuration. Employee needs to update the signature before send his/her employee evaluation form to the supervisor. Supervisor needs to update his/her signature before the employee evaluation can be sent to director for review and approval. Director needs to update the signature (one time setup) before approving the employee evaluation.

1. Click userid to expand user setup options. The signature setup is located at "My Profile"

[image-1667016958065.png](#)

page screen see below, Image not found or type unknown

2. Click My Profile to open the user profile page as below,

[image-1667017103627.png](#)

Image not found or type unknown

3. In the My Profile screen, click on the **Change** button. To update signature as per below screenshot. User can sign on the blank space or click upload signature button to upload a signature image file and click Save button. Once sign/upload and save, this signature will appear on the employee evaluation form.

Type 1 Employee Self Appraisal Not Required

For each Evaluation Factor in HRM master, If  flag in Part I of the

Evaluation Factor is set to **NO** and the employee evaluation is created with this evaluation factor, then the employee is not required to do self appraisal.

Below are the workflow steps for type 1 scenario:

Supervisor Level

1. Once a new employee evaluation request is created, the supervisor will receive an email notification to remind that he/she needs to do this employee's evaluation. Click on the URL i.e. https://xxx will open the employee's evaluation form for the supervisor to do evaluation.

Image not found or type unknown

2. Supervisor need to click the key of each new evaluation request (with status being "New Request").
3. The evaluation detail page opens as below,
