

# Request for Quotation (RFQ)

Once the Material Request is approved, and authorized to purchase, it should be recommended to purchase.

1. Click [image-1659118109177.png](#) to proceed to next action of creating Request for Quotation (RFQ) from approved suppliers. [image-1659118325073.png](#)
2. Click to confirm Recommended To Purchase, a RFQ with unique key for tracking will be created automatically for the MR. See below RFQ table.  
[image-1659118591415.png](#)
3. The status of the MR is changed to "Created RFQ".  
[image-1659118742205.png](#)

## Request for Quotation (RFQ)

Once RFQ is created, it can be accessed in the MR detail page or thru Procurement - > RFQ where all RFQs are listed. In RFQ, the purchase officer will send all the appropriate suppliers with a request for quotation. The quotation requests will be managed in this section.

[image-1659119362593.png](#)

1. Click the RFQ key in the RFQ list page or in the MR detail page RFQ table, the RFQ detail page opens, see below: [image-1659119696019.png](#)
2. Click [image-1659119944809.png](#) (Add Quotation Request button) and the below window opens.  
[image-1659120178625.png](#)
3. Select a supplier from the supplier dropdown list.
4. Select the items that we want to ask for quotation from the supplier. By default all the items in the MR are selected. Company can request for quotation for different items from different suppliers.
5. Click [image-1659120607001.png](#) to create the RFQ for the supplier. The below quotations for different suppliers are created. [image-1659120779405.png](#)
6. The RFQ can be sent to suppliers by two ways:
  - Click the [image-1659121120075.png](#) (print button) to generate the RFQ which can be saved as PDF and sent to the supplier (make sure the Pop up is not blocked by web browser so that it can be viewed in the browser. If blocked click on the red cross icon in the browser to allow opening the pdf RFQ)  
[image-1659121588110.png](#)
  - Click [image-1659121201329.png](#) to email the RFQ to suppliers directly from cuteOffice system (make sure to inform Cutech team to configure sender email

address). Click to enable "Send email directly?", and the email template will open.

[image-1659122304476.png](#)

Check and fill up required information and click [Image not found or type unknown](#) to send email.
